

SVdP PTO will host the 2020 Career Fair March 9th-11th. There are some exciting discussions planned for our students that range from Entrepreneurship to Medicine to Performing Arts. Speakers will be on campus in the mornings sharing their backgrounds, experience in their roles and what was required of them to get where they are today.

The 5th-8th graders will complete a career interest game prior to the fair to explore their individual interests. This makes for a great opportunity to discuss future careers with your children as they learn about a few options from our distinguished speakers.

Many of our speakers are current parents or SVdP alumni and we thank them for sharing their time with our students!
