A Statement From the Superintendent Regarding the Governor's March 10 Executive Order

Over the past year, our Catholic Schools have done a stellar job delivering a high-quality education in a variety of innovative ways, all while keeping student, teacher and staff safety as a top priority. Our efforts have been supported by invaluable safety practices, including that:

- We have continued to offer in-person, remote and hybrid learning opportunities for our Catholic School students.
- Our Catholic Schools have had the resources, such as masks, sanitation and space modifications, to make our school communities safer and help mitigate the risk of COVID-19 cases in schools.
- Our teachers have continued to answer their calling to serve God as educators of His children, with the upmost commitment to academic excellence.
- We have facilitated the offering of the COVID-19 vaccine to our Catholic School teachers and staff, ensuring additional protection for those that serve as educators, administrators, staff and volunteers.

In doing all of the above, our Catholic School students and their families have benefited immensely from school learning communities rooted in faith during this global pandemic.

At the current time, our schools will continue to operate as we have this past year, using the tools and COVID-19 mitigation efforts that have kept our school communities safer.

May God continue to guide and protect our students, teachers, staff and their families.
