Minutes:

1. No adults or students have tested positive since school started. Health department does require the notification to parents of positive cases. All individuals that are identified as possibly affected will be personally notified by the school.
2. Hiring – currently having interviews with good candidates for both Mr. Acito and Mrs. Beyer's jobs.
3. eLearning – there have been some issues with connectivity. Mr. Collins and Mrs. Robbins are working diligently and doing their best. Some of the issues with emails are due to an internet contract that was signed by Ms. Blum. This will be resolved in December.
4. There have been some people upset about how the bus riders, car riders, and walker dismissals are going. This is being done to keep everyone as safe as possible.
5. Questions were brought up about remote learning moving forward. Some parents are upset with the digital Wednesday for various reasons. Things will continue to be evaluated as the school year progresses. Right now the deep cleaning seems to be helping and maintenance issues can be resolved on Wednesdays due to the custodial staff needing to clean throughout the building continuously during in school days.
6. School Spectacular – planning is on-going, there is a 3-tier process and sponsor letters are going out soon
7. Teachers report, Mrs. Smith – proud of the kids and how they are handling everything
8. Finance report – everything on target. Money from CARES act has went for cleaning, filters, etc.
