

As we remember that Tuesday, September 11, 2001, and the horrific terror attacks that happened, let us remember all those souls who died and their families. The souls that died as a result of the days and weeks that followed. And all those who survived and 20 years later are here to share their stories.

September 11, 2001

We will not forget.

Personally, it is always difficult as I remember the shock as I walked out of class that morning in Washington D.C., and saw the smoke rising from the Pentagon. The hours that followed were sad and unsure, but we relied on our faith and hope in the Lord to see us through. He gave us the strength to get to this point in our journey; we thank Him for his providence.

Eternal rest grant unto them, O Lord. Amen.

May the souls of the faithful departed rest in peace. Amen.
