SACBS encourages the use of advanced technology afforded by Internet access. Parents and guardians of minors are responsible for teaching the standards that children should follow when using the internet. The school reinforces those standards. At school students are instructed to:

- Obtain parental permission for Internet access (form must be on file with media teacher).
- Be responsible for one’s own behavior and practice appropriate etiquette. All rules of conduct in the school handbook apply.
- Use technology only to support educational and/or research consistent with the objectives of the school.
- Use resources only as intended following the rules appropriate for network.
- Never transmit any material in violation of federal or state regulation including copyrighted, threatening, obscene, or protected material. Students in violation may be subject to legal action.
- Never use technology for commercial activities, product advertisement, political lobbying, or non-academic activities.
- Never save research or other information to the hard drive. All needed information is to be saved on a flash drive or disk.

Use of the Internet is a privilege, not a right, and inappropriate use will result in cancellation of those privileges. School officials may review files and communications to maintain system integrity and ensure responsible use. Decisions of school officials regarding unacceptable use are final.
