**THE FLU SEASON –  
How long should I stay  
home if I’m sick?**

CDC recommends that you stay home for at least 24 hours after your fever is gone except to get medical care or for other necessities (your fever should be gone

without the use of a fever-reducing medicine.)

Stay away from others as much as possible to keep from making others sick.

Continue to cover coughs and sneezes and wash

hands even after your return to work. It is important to know

that even if you don't have a fever, you may have the Flu and be contagious if you get flu symptoms.
