Links Rheumatism With Mental Ills

Lieut. Col. Philip S. Hench, internationally noted authority on rheumatic ills, last night said signs of rheumatism and arthritis were among the most common results of servicemen's psychoneuroses.

Speaking to doctors and nurses at St. John's Hospital, Col. Hench, medical service chief at Army and Navy General Hospital, Hot Springs, Ark., said gold salts were now being injected in treating rheumatoid arthritis.

"But the greatest relief to sufferers from rheumatoid arthritis," said Col. Hench, "is brought by jaundice and pregnancy. We are working on ways of giving the patients jaundice, and this may lead to our discovering what causes this disease of the joints.

"So far we don't know if it is a germ disease, a chemical change, an immune reaction or something else."

Col. Hench is on leave from the Mayo Clinic, where he is head of the department of rheumatic diseases.

Everyday Religion - - By DON D. TULLIS

After War—What?

Isaiah broadcasting: "Hark! there is one calling; clear the way for the Eternal." The highway of humanity is littered with wreckage. Cities and civilizations are in ruins. We thought we were building a beautiful world. We failed. There is one hope left. We must clear the way for God.

We have built our civilization on many false premises. One is that war is unavoidable, and essential to human progress. Hitler said: "Man lives on war and perishes in peace." He may have changed his mind. His disciple, Rosenberg, said: "A new peace established by the victorious sword of a master race shall make Germany mistress of the globe." These words are all he has to eat for breakfast.

We must discard the false premise that power is greater than personality, money more valuable than men and commerce more important than character. Wall Street must no longer loom larger in our minds than Church Street. The recognition of the primacy of individual worth is necessary to clear the way for a better world.

There is also rubbish to be cleared from the wake of this war. We must destroy the apparent tendency to continued dictatorship. Our people have gladly submitted to the rule of overlords, many of them little Hitlers, in order to win the war. With the defeat of Germany and Japan this will end. It is both undemocratic and unchristian. What a political threat this would be if it were continued, with millions of government employees, each with a vote to keep the party in power.

We must also clear the way of the modern conception of an easy going God. He is a God of mercy, but also of judgment. The Nazis corrupters of human kind must be punished. Let no more officers throw tea parties for defeated murderers, commending their generalship and serving them coffee, cognac and cigarettes. Jesus said to lesser criminals than these: "Ye generation of vipers, how can ye escape the damnation of hell?"

The silly sentimentalism so common to Americans must give way to stern judgment. They who have made the world a shambles must suffer for their crimes.

"Hard! there is one calling; clear the way for the Eternal." It's a man-sized job. The rubbish is mountain high. Are we ready to tackle it?
