The Silent Victim

In the DVD "The Silent Scream" where an unborn child attempts to escape the abortionists suction curette; her motions can be seen to become desperately agitated as her heart rate doubles. Her mouth opens to scream, but no sound can be heard.

The pro-abortion movement and lobby thrives on having a silent victim.

Every pro-abortion argument requires that we pretend, that we play mind games, that we forget, ignore, or deny the humanity, worth, and dignity of unborn babies.

It thrives on our ability to disregard innocent victims as long as they are out of our sight and voiceless.

Tell a lie often enough and people will eventually believe it. Just consider their terminology (with words such as "fetus" "pro-choice" "non-viable" etc.) which is carefully designed to disguise the humanity of the unborn child and obscure what abortion really does.

This is the story of the pro-abortion deception of America.
