

STUDENT/STAFF screens positive for a **concerning symptom** on screener or develops concerning symptoms at school
AND has no known exposure to someone with COVID-19 in the past 14 days

HEALTHCARE EVALUATION IS INDICATED

Household members should stay home until test results or healthcare evaluation results are back. School contacts should stay home if the individual is tested for COVID-19.

CLEAR ALTERNATIVE DIAGNOSIS

(e.g. positive strep test, urinary infection)

Can return to school after 24 hours of resolution of fever and improvement in symptoms with note from healthcare provider

Healthy household members may continue working, going to school or childcare

NO CLEAR ALTERNATIVE DIAGNOSIS

COVID-19 TESTING INDICATED

Student/staff stays home until results are back

Household members stay home until results are back.
Schools should begin contact tracing and school contacts should stay home until results are back

NEGATIVE MOLECULAR/PCR TEST: Stay home until fever free for 24 hours without using fever-reducing medicines, and symptoms improving

Healthy household members may continue working, going to school or childcare

POSITIVE TEST: Isolate for at least 10 days, until fever free for 24 hours without using fever-reducing medicines, and symptoms improving. A negative test is NOT needed to return to school.

Household members must quarantine at home while the positive student is in isolation AND for 14 days after last exposure to student with COVID-19 or cleared by the health department. School contacts must quarantine.

TESTING NOT DONE: Assume the student/staff is positive and isolate for at least 10 days, symptoms improving and fever free for 24 hours

Household members must quarantine at home while the positive student is in isolation AND for 14 days from last exposure to student with COVID-19 or cleared by the health department. School contacts may continue attending school.

If student/staff has the following symptoms concerning for COVID-19, healthcare evaluation is needed:

Any TWO of the following:

- Fever (measured or subjective)
- Chills
- Headache
- Extreme Tiredness/Fatigue
- Sore Throat
- Congestion or Runny nose
- Body aches
- Nausea/vomiting or Diarrhea

OR

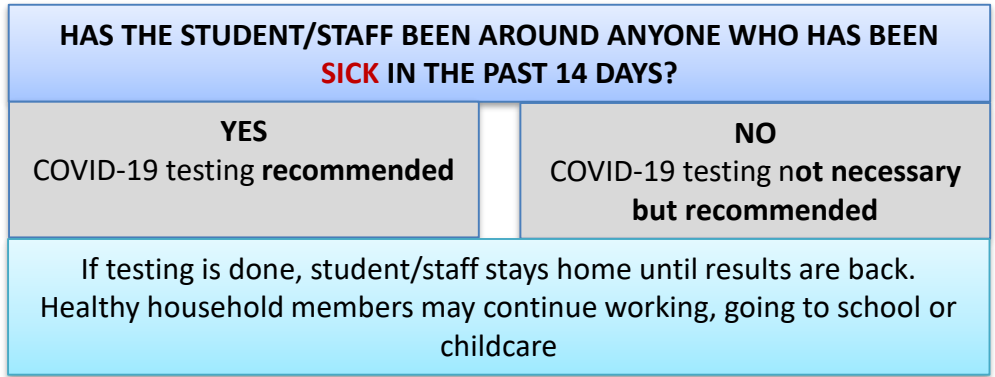

ONE of the following:

- New cough
- Loss of taste or smell
- Shortness of breath

STUDENT/STAFF has symptoms that are **NOT** as concerning for COVID-19 or has only **ONE** of the symptoms on the list below
AND has no known exposure to someone with COVID-19 in the past 14 days:

NEGATIVE TEST
 Stay home until fever free for 24 hours and student/staff improving

Healthy household members may continue working, going to school or childcare

POSITIVE PCR TEST
Isolate for at least 10 days
 A negative test is NOT needed to return to school

Household members must quarantine at home while the positive student is in isolation AND for 14 days after last exposure to student with COVID-19 or cleared by the health department. School contacts must quarantine for 14 days.

IF TESTING IS NOT DONE
 Stay home until fever free for 24 hours and symptoms are improving.

*If symptoms do not improve in 2 days, contact a healthcare provider and have testing for COVID-19

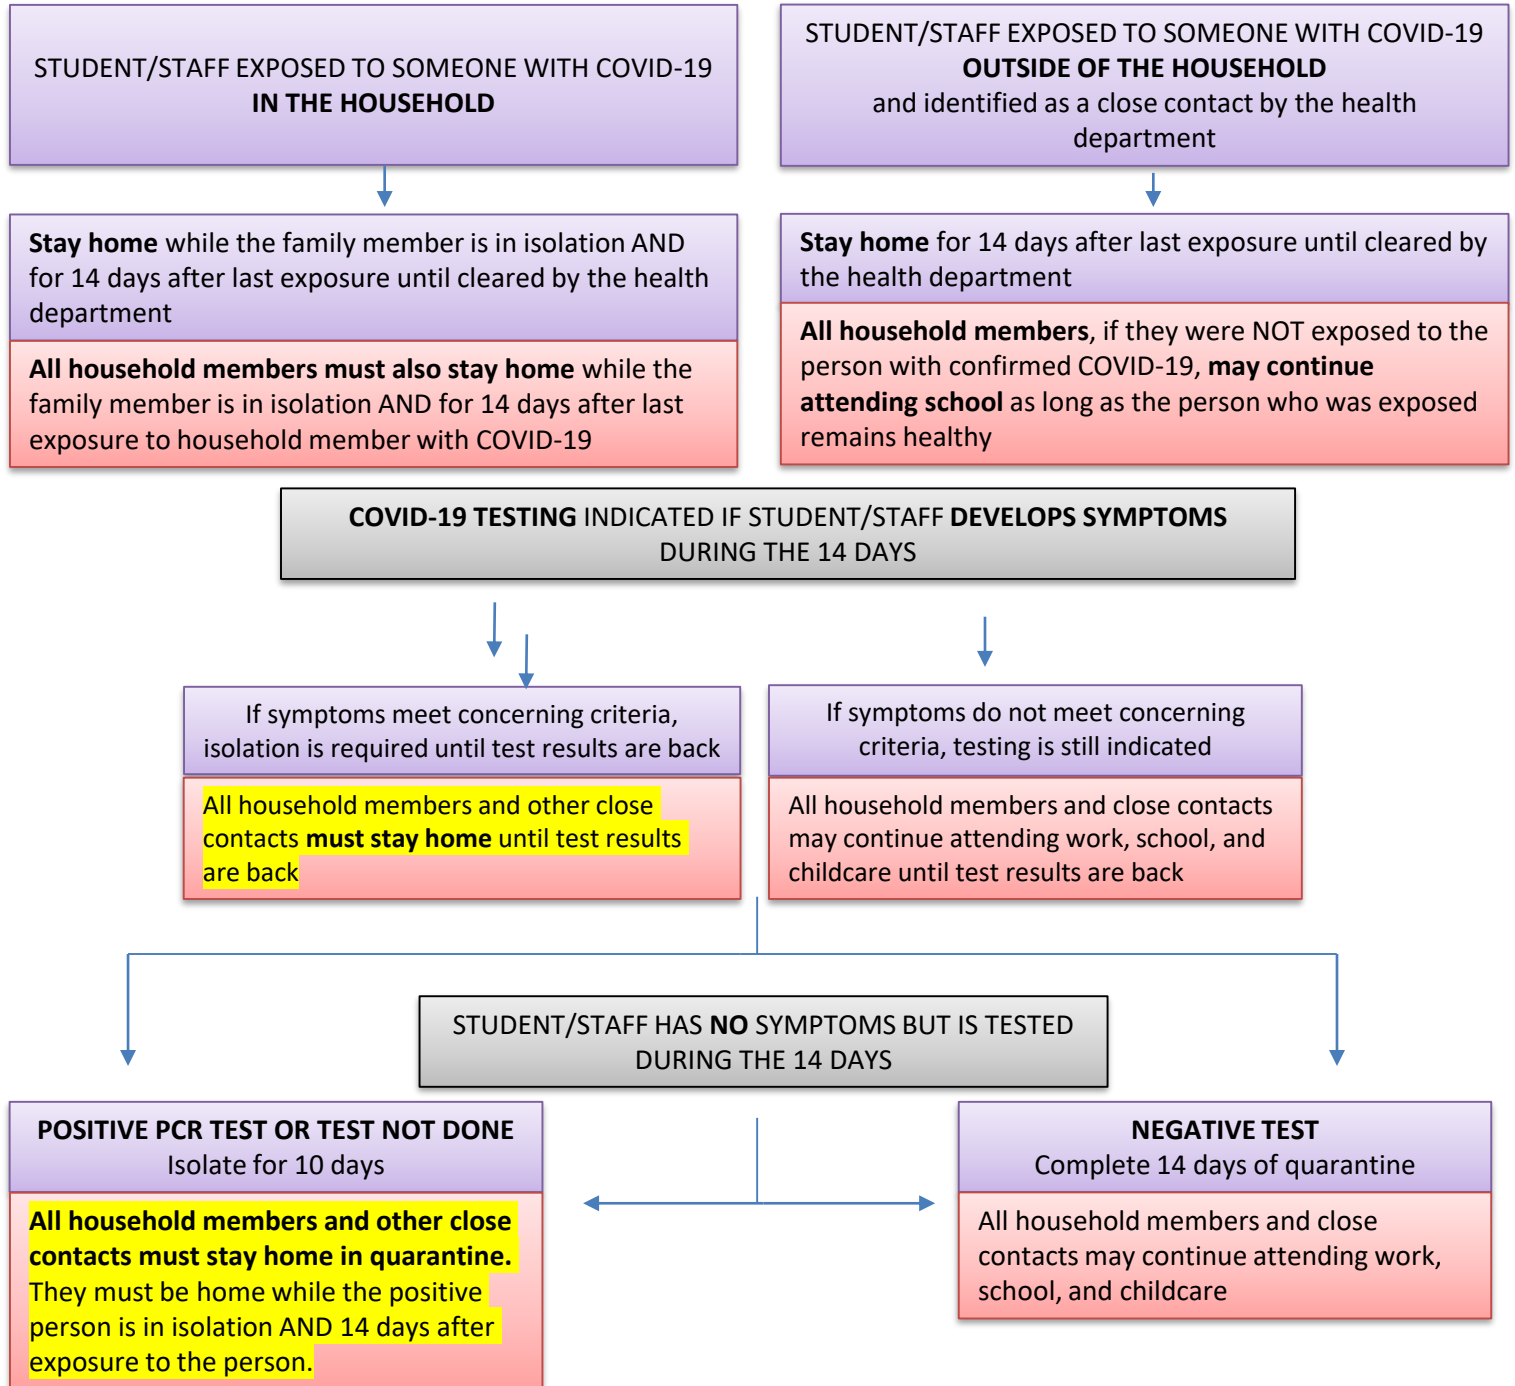

Healthy household members may continue working, going to school or childcare

Students/Staff who have known exposure to a person with confirmed COVID-19

Stay home for 14 days after last exposure until cleared by the health department
Consider COVID-19 testing. Must complete 14 days of quarantine **EVEN** if test is negative

A negative COVID-19 test does not mean that someone who is a close contact can end the 14-day quarantine early
