How Do I Properly Use YouTube's Parental Controls?

YouTube is the second most popular search engine with over 2 billion searches daily! Kids love it, but parents typically don't. There are some steps parents can take to enable a safer search experience for their kids, which is very important. Make no mistake - there is an abundance of inappropriate and downright pornographic content on YouTube. [Please read this blog post that includes detailed, step-by-step instructions for protecting all types of internet-ready devices from junk on YouTube!](#)
