Parent Controls and Safe Browsing

- **Protecting Young Eyes** has a variety of recommended parental controls that have been tested by their team of experts:

- At the very least, we recommend using the free version of **Clean Browsing**: <https://protectyouneyes.com/apps/cleanbrowsing-dns/>.
- Another option similar to *Clean Browsing* is **OpenDNS**: <https://www.opendns.com/home-internet-security/>. OpenDNS is one of the world's most popular clean DNS, namely their "Family Shield" set of blocked categories.
- **What does DNS mean?** How do I set up parental controls already built into the technology that I have?
