Ms. Larkin's fourth grade class is off to a great start! The students have all settled in and are adjusting to the demands of fourth grade. They are working on a wide range of topics.

In language arts, the students are reading the *Tale of Despereaux* and discussing the theme of good versus evil. They have also been enjoying our class read aloud of *Tales of a Fourth Grade Nothing* and *Super Fudge*. The class has completed two writing pieces, a personal narrative and a character analysis.

So far in math we are reviewing and building on concepts first introduced in third grade. The students have all impressed Ms. Larkin with what they have learned and retained from last year. Good job! Of course, the work will become more difficult, but I am confident they will meet the challenge.

The curriculum for fourth grade social studies is New York State. We have spent the first couple of weeks examining New York’s geography and working on map skills. The students are looking forward to learning about some famous people in the history of our state.

In science we have discussed energy and its various forms. If you are interested in learning more about the fourth grade or any grade at our school please check out our social media pages. Website: www.stambroselatham.com, Facebook: @stambroselatham.com, and Instagram: st.ambrose.latham.
