

Do you have plaque buildup?

- Atherosclerosis (illustrated at left) is the leading killer of adults age 55+.¹
- 70% of those age 55+ have 2 or more risk factors, and many are not aware of it.²
- Using advanced ultrasound technology, Life Line Screening can now actually see inside your arteries to help determine your risk for atherosclerosis.

¹National Heart, Lung & Blood Institute

²Life Line Screening database analysis; 8 Million customers screened between 1993-2014.

Which Screenings are Right For you?

9 out of 10 cardiovascular doctors support preventive health screenings for cardiovascular disease among patients with key risk factors.*

All 5 Tests for \$149
