

Sample Scope & Sequence

Live Courses 2020/2021

A scope & sequence is a plan of what and when to teach specific subjects and courses. Below is a sample of courses by grade level for the 2020/2021 school year that will be taught live. To sign up for Homeschool Connections live, interactive courses visit, <https://homeschoolconnections.gosignmeup.com/>. (We also offer recorded courses at <https://learn.homeschoolconnections.com/unlimited-access/>)

Parents are the primary educators of their children -- you know your child best -- and so we encourage you to adjust this sample scope & sequence based on your child's special interests, academic level, etc. For example, Honor's Biology may be a better fit than Biology for a child who loves science. Conversely, Basic Chemistry may be a better fit than Chemistry for a child who struggles with science.

Here is a form, with instructions, to help you create your own scope & sequence: <https://d2y1pz2y630308.cloudfront.net/5316/documents/2018/1/ScopeSequenceInstructionsK12.pdf>

BONUS: For the 2020/2021 school year we are offering a 50% off coupon code for philosophy and logic courses: **philo50**

Make sure you have the prerequisite before signing up for a course. Email us if you have a question at homeschoolconnections@gmail.com.

If you would like one-on-one consultation, we recommend Paola Ciskanik at <https://homeschoolconnectionsonline.com/need-advice>

Now for the **Sample Scope & Sequence for Live Courses 2020/2021 ...**

ADDITIONAL COURSES

HomeschoolConnections.com also offers many special-interest courses not included above, including Computer Science; Debate; Government; Business; and more.

Visit the registration page at <https://homeschoolconnections.gosignmeup.com/>.

Email us at homeschoolconnections@gmail.com.

CLOSED COURSES

Live, interactive courses close one week before the start date OR when they fill to the maximum number of students (usually 25). Due to COVID-19, we expect most of our live courses to fill up and close early.

We recommend registering for live courses as soon as possible. If a desired course fills up and closes, you have several options: 1. Look to see if there is another time segment available for that course. 2. Choose a similar, alternative course. 3. Sign up for Unlimited Access for recorded, independent-learning courses. Unlimited Access courses never fill up and are available year round.
