- **SUMMER MATH**

Summer Math is for Grades 1st-8th

Math Packets by Grade Level are attached

****Important-** the Grade level indicated on the packet is for the grade they are entering**

If your student was in 7th Grade standard math, they should complete the 8th grade PA packet

If they were in 7th Grade Pre-Algebra, they should complete the incoming Algebra packet.

Returning students: Math packets should be completed over the summer and will be due the first day of school. This assignment will count as a grade for the first quarter in math.

New Students: Math Packets are not required from new students. If you would like your student to complete, they may but they are not due at the beginning of school.

Extra copies of the math packet are available in the front office.

- **SUMMER SOLUTIONS**

Summer Solutions is for Grades K-8th

For New and Returning Students:

We are also attaching an option for summer review in math, reading comprehension and English. Summer Solutions provide a spiral review of subject matter learned in the current year's grade level. For example, if your child is in 1st grade for the 2019-2020 school year, you would purchase Summer Solutions Grade 1. Summer Solutions is a great resource for reviewing skills in a quick and easy way! Again, this is OPTIONAL. Please see the [letter](#) for your school code when purchasing.
