

Fr. Fred Liccio

Dear Friends,

Often times we can hear a "secular" song and find something very spiritual in the lyrics and in the music. This particular song has taken on new meaning for me and for many others since the pandemic began. My friend in Michigan, Father Darryl, even sang it on his Facebook page back in March.

Let us realize that we are never alone. Jesus is always with us. His love and care are a great gift given to us constantly and we never have to fear. May the Holy Spirit fill us with courage and strength, and may these words inspire us to allow Jesus to take us by the hand and lead us.

Let us continue to pray for each other. Let us pray for firefighters and emergency personnel, for delivery people and small business owners, for chefs and servers, for grocery workers and food providers. Let us continue to pray for all those people who keep us going. May God's protection and presence be with us all!

Father Fred
