

First of all, I am grateful to God for the life and health that he has given to my family. I also thank him for all the blessings he has given me; Without a doubt, words would not be enough for me to be able to thank for all the support provided by the Nuestra Señora de La Presentation parish, since it has come to greatly improve the possibilities, so that I can get ahead and receive my classes with the slightest difficulties.

Previously, it was quite difficult to receive my class online since the internet connection, was quite limited. The tasks became quite difficult, since I did not understand the contents that were being developed. As a consequence, a poor performance in my academic activities. Due to this, at some moments leaving my studies crossed my mind, because the degree of difficulty was quite high. I was constantly subjected to high levels of stress since this pandemic was very worrying because the rate of positive cases was quite high. My mother and father stopped working so my family's income became zero.

But not everything is just bad news. I had previously been informed that the acquisition of the internet service was being managed by the scholarship program together with the support and faithful collaboration of the sponsors of the Parroquia Nuestra Señora de La Presentation. I was very happy about that since there was the possibility of improving internet connectivity, and it would be very useful for me to carry out my tasks.

Later I was given the great news that the Internet service was already available in the house that CIS San Rafael Cedros has. I did not hesitate to tell my parents and some close friends the great news. My parents felt quite excited since it would help me a lot to be able to continue with the next cycle. The only detail was that I was going to be staying in San Rafael Cedros.

So far I feel quite motivated to move forward and show all the people sponsoring this scholarship project that I am proud of all the achievements that I am obtaining thanks to your aid. Without a doubt, every day they surprise me with all the facilities that they are giving us, since now we have internet, three laptops and all the energy to get ahead.

I never tire of thanking all these gestures of solidarity that Our Lady of the Presentation Parish is giving us, hoping that they are very well and full of many blessings. I send you many hugs from here in San Rafael Cedros, El Salvador and may God take care of you.

Sincerely, JAVIER
