

Renaissance Home Connect

- Allows a parent to sign up for emails notifying them of when their child takes an AR test.
- Allows students or parents to use Book Finder. Book Finder helps students and parents identify the book's reading level and how many points the book is worth.
- Home Connect also allows students and parents to see how a student is progressing in Accelerated Reading.

The link below will take you to Renaissance Home Connect. You will log in with your student's user name and password, which they should know. If they don't remember their log in information, please contact Mrs. Drake at jdrake@olpls.org to get that information. When you get to the site, you can register to receive emails when your child takes a test or you can view their current progress with AR.
