

5th Grade Happenings

October 10, 2017

Hartley Drivers

If you volunteered to drive for Hartley and I plan on using your services, you will be getting an email from me. Thank you for volunteering. The students and I really appreciate it.

If you signed up to drive and I'm not using your service this time, thank you for the offer. Hopefully you will be able to drive for a future field trip.

Science Test

The science test was handed back to the students. I encourage you to look at the test and discuss it with your child. After you look at the test it needs to go back in the science section of their accordion folder.

The students had a study guide for this test. We went over the study guide as a class to make sure they were studying the correct answers.

Traveling Prayer Bag

SPS has started the "Traveling Prayer Bag." Each class will be participating and have their own bag. There is a letter in the bag explaining what the "Traveling Prayer Bag" is all about and I explained it to the students. Each student will get to use the prayer bag for one week with his or her family and return it the following Monday. You don't have to use everything in the bag. It's up to you and your family. When using the holy water, don't fill the bowl. Place your hand over the bowl and squeeze a few drops on your fingers to bless yourself.

Grades: Power School

Please remember to be checking your child's grades. Use this link to log in.

Mass: October 12th

The 5th graders will be leading Mass this Thursday. They were given their parts last Friday. If your child has a speaking part, he or she should be practicing at home. Have him or her read to the part to you.

Response: Samantha Petitions: Kaitlyn and Brandon Gifts: Owen, Lydia, Dylan, and Amelia. Server: Dayne

Language Arts Test Tomorrow

There is a language arts test tomorrow (10-11). The class did the chapter review last week and we did another review as a class today. The set-up of today's review was exactly what the test will be like tomorrow.
