

5th Grade Happenings

December 5, 2018

Math Facts

Students should be working on their math facts so they can become fluent in them. There are several ways they can practice their facts. They can go on to mobymax.com, log in to their account, and work on fact fluency. They can go on to abcya.com and play games like "Math Fact Shootout" or "Math Bingo." If they don't have internet access, old fashioned flash cards will work. Practice makes progress, not perfection.

TOY (Think Outside Yourself) Field Trip

The date has been set for the field trip. We are going on Thursday (12-13). I plan on leaving school around 1:40 and returning around 3:20. A permission slip went home. It is due back on Monday (12-10). The money can be brought in with the permission slip or on Thursday when we go.

Science Fair

Students were given a form to fill out telling me what question they want to answer for their science fair. This form needs to be filled out by the student, and signed by a parent. I need to give the final approval. This needs to be turned in so the experiment to answer their question can be started. The form is on my website.

Class Christmas Party

Please stay tuned for more information to come.

Hope In a Box

Each month the school collects items for Hope In a Box. This month we are collecting hats, mittens, scarves, etc.

Secret Santa

Names have been drawn. I had each student write down some ideas. Hopefully this makes shopping easier. We set a \$5 limit, but if you go over a tad, that's fine. I told the class that since this wasn't a service, it was fine if their parents help to pay for the gift. Gifts will be exchanged at our Christmas party on December 21st.

Power School: New link

Please make sure you are checking your child's grades. Hopefully the new link works for you. If you still have trouble logging on after using the new link, please contact Mrs. Heatwole.
