Purpose and Overview

The Office of Healing and Prevention along with the Bishop’s Office have determined that it would be beneficial to use a parish self-assessment guide to determine to what extent our parishes and schools are implementing the diocesan policies relating to the *Charter for the Protection of Children and Young People* at the parish level. This self-assessment can be used by staff to determine if all diocesan policies are being followed as well as help determine where there might be a need for more training in the implementation of the *Charter*.

Questions regarding schools only pertain to those parishes with a school.

For the *Charter* to be effective and the audit a tool for creating safe environments, it is important that parish personnel know:

- How to create safe environments in their parishes and schools
- How to implement diocesan policies concerning training of all employees and volunteers
- How to implement diocesan policies concerning background evaluations of employees and volunteers who work with children
- How to implement the diocesan policy on extern/visiting priests
- The name of the people responsible for the implementation of the *Charter* at the parish level and at the diocesan level
- Who schedules safe environment training for adults
- Who is responsible for education of children and parents
- How to report allegations and to whom
- How to get outreach for a victim, his/her family, or the parish community

This self-assessment guide is intended as an internal document solely for the use of the diocese. It will assist all of us in responding on the audit instrument this summer.
