

## Fever and Sibling Guidelines

August 18, 2021

Fever: All students who have a fever of 100 degrees fahrenheit or greater cannot return to school until they are fever free without any form of fever reducing medication for 3 days.

Siblings: If one child in your household is kept home from school with an illness, **all** of your children need to remain home at least for 24 hours. If it is determined that the illness is not covid related and the other children remain symptom free, then they may return to school the following day.
