Education: Some of us really don’t like Donald Trump. He has an uncharitable attitude toward immigrants and poor countries. (1) Although he denied the allegations, he almost certainly paid an “adult performer” to be silent about his sexual misconduct before the 2016 election. (2) He has chased off his best advisors by firing anyone who dares to disagree with him. (3) We may agree with the Democrats about immigration or economic policies. But with abortion, we are not talking about the best way to improve the quality of life, but about preserving life itself. Other rights don’t matter if you don’t first have the right to life. And of course millions of Americans do suffer greatly for decades because of their abortions. (4)

In 2016, we knew that the next President would be likely to critically change the composition of SCOTUS (Supreme Court of the U.S.), and Trump promised to nominate pro-life judges. So the pro-life vote was certainly a factor that helped Trump win the election.

In 2020, he is still the pro-life candidate. No third party candidate has any chance of winning, and this election will be close. We are getting close to being able to overturn Roe and Doe, enabling about half the states to ban abortions. We need every vote to protect both the preborn and their mothers. The data shows that abortion restrictions not only reduce abortions, but also reduce unplanned pregnancies. (4)

The Democratic Party has embraced the extreme position of abortion legal up until birth, and even allowing newborns to die, a position totally out of touch with the large majority of Americans. If the Democratic Party takes over Congress and the Presidency, every state restriction on abortion gained over the last several years may be undone by national policy. (4)

As Abby Johnson said at the Pro-Life Summit in January, she is a proud single issue voter. She is not voting for a personality, but for the unborn, because lives are on the line. (4)

Prayer: Dear Lord Jesus, please have mercy on our nation. Help us to find our way to build a nation that respects the sanctity of human life in every circumstance, to respect the dignity of the preborn, the handicapped, the elderly, and immigrants. We pray that the truth of abortion, what it is, how it ends life and harms both women and men, will be spread and accepted throughout the land. Help everyone to understand the evil of abortion and lead us to make it not only illegal in our country but unthinkable.

Action: Don’t be embarrassed to support Trump, in the name of supporting preborn children and an end to abortion. You cannot deny some of the negative opinions of others, but remind them that abortion is the most important issue of our time. In addition to the preborn lives lost, millions of women and men are suffering from depression, substance abuse, and other effects of their abortions, to the detriment of our society.
