## Now Is Your Chance!

---

**Education:** Each year thousands of pro-life Texans gather in Austin to march through the streets and listen to speakers at the Capitol. It is a powerful testimony that Texas is a pro-life state! And it also energizes and connects pro-life Texans with pro-life organizations working in Texas. This year, of course, we cannot gather in a crowd. But we still want to show our legislature that we want passage of pro-life bills - and will vote for pro-life

representatives. This year the Texas legislature will meet and we have the opportunity to pass a real ban on abortion. It will be a 'trigger' bill, which will allow the law in Texas to immediately change to ban abortion to whatever extent is allowed by federal law or Supreme Court decisions.

Here's the plan for the rally:

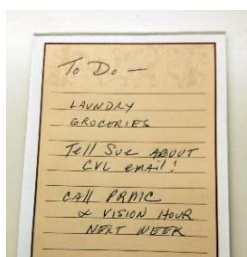

**1. The live-stream broadcast** will feature an outdoor stage with speakers in Austin (no live audience), AND interviews will be done with pro-life leaders all around the state - including Houston Coalition for Life with their Big Blue bus outside Planned Parenthood on the Gulf Freeway. The audio will also be broadcast on radio.

**2. A caravan of cars** will drive a loop from a parking garage near the capitol, past the stage, onto I-35, and back to the garage. The caravan will continue to circle from 2 pm to 4 pm, with drivers listening to the radio to the speakers and interviews.

Details are available at [www.TexasRallyforLife.org](http://www.TexasRallyforLife.org)

**Prayer:** Dear Lord, please bless the efforts of pro-life efforts in Texas and in every state. Help more and more people nationwide come to understand and accept the humanity of preborn children and the terrible harm done by abortion to mothers as well as to the babies. We particularly pray for conversion on the part of leaders of the Democratic Party, and for strength for pro-life Democrats to maintain their position in spite of pressure to align with party policies. Inspire many pro-life Democrats to voice their opinions to their party leaders to let them know that their extreme position of allowing abortion at any time for any reason, with funding from the government, is NOT what the American people want.

**Action:** Please go to the [Texas Rally for Life website](http://TexasRallyforLife.org) to learn how to watch and listen to this exciting event. Mark your calendar for 2 - 4 pm on Saturday, Jan 23, 2021 and ask your family and friends to join you. Spread the word at your church, your bible study, and in your neighborhood. Perhaps you may even want to drive to Austin to take part in the caravan. Students for Life will also have a few students outside the capitol and perhaps on some street corners - there are lots of young pro-lifers!!
