When 'Pro-Choice' is Against Choice!

Education: “Pro-Choice” sounds good, right? Of course anyone’s right to choose depends on what they are choosing, and if they are infringing on another person’s rights. But while the abortion industry claims that a woman should have the choice to end her pregnancy, they actively deny other choices. They deny women the choice to see their ultrasound. They deny a woman’s right to an informed choice by lying about fetal development (1) and the dangers of abortion.(2) In spite of decades of

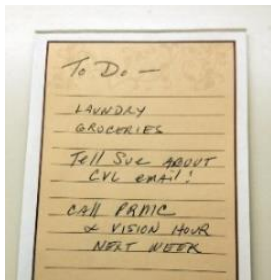

using the same bio-identical hormone to prevent miscarriages, and over 2,500 healthy babies now alive after abortion pill reversal, the American College of Obstetricians and Gynecologists (ACOG) claims that the procedure is “unproven and unethical”.(3) Even though abortion facilities have already made their money by selling the pill abortion, they complain about state requirements to inform patients of the possibility of reversal, and immediately deny the truth of the statement. Is it because if the abortion is completed, they might be able to sell her another one several months later? Or is it because they don’t want women to realize that women do change their mind and regret their initial choice of abortion?

In one case, a woman in the process of a late-term abortion delivered her baby into the toilet of the abortion facility. Seeing that the baby was still alive, she wanted to save his life by calling 911 and getting help for him. But the staff at the “clinic” did not want to allow her that choice.(4)

Prayer: Dear Father God, please have mercy on women and girls who are experiencing a crisis pregnancy. Help them to trust in You and to find the support they need to cope with the pregnancy and resist any coercion they may be facing. Help them to know the truth about their baby and the serious risks of abortion. And help them to learn of the real possibility of reversing a pill abortion if they act quickly, within 72 hours. Please help everyone in the community to understand the truth that abortion kills a precious child and harms women – and men - physically and emotionally. Help everyone wounded by abortion to know your mercy and healing.

Action: Mention to your friends that you are disappointed in the Association of doctors (ACOG) that denies the possibility of reversing pill abortions, in spite of clear evidence that it works. It is sad that we cannot rely on those who are supposed to be experts to tell the truth when it comes to abortion. It is hypocritical for those who claim to be “pro-choice” to deny women the right to have an informed choice by telling her lies that will make it easier for her to choose abortion, thinking that the baby is not developed and the procedure is safe. They tell women what will sell abortions, rather than the truth, so they can make more money.
