

What Members Can Expect From Us

A Welcoming Parish

Our mission statement is to be *A Church Without Walls for a Love Without Limits* and we take that seriously. It means that all are welcome at Resurrection because Christ died for all and he desires all people to experience the love and salvation he offers us. We make every effort to extend hospitality and to respect the diversity of our community.

Reverent & Prayerful Worship

Our goal is to make Sunday Mass the best hour of the week! We strive to do so with relevant and thoughtful homilies, beautiful music and environment, and well-trained liturgical ministers.

Christian Education & Formation

Our parish desires to be a center of Christian learning and formation for all ages. We provide a safe environment to explore the richness of our Catholic faith through catechesis, sacramental preparation, parish missions, retreats, and days of recollection.

Opportunities to Serve Christ in Others

We aim to provide opportunities for members and friends of ROL to use their time and talents in direct service to the poor, locally and globally, in ministries of care to the sick, the elderly, and the bereaved, and in liturgical ministry to our parish community.

Prudent Stewardship of Resources

We are grateful for the generosity of our members and friends in supporting our parish, and our leadership works diligently to be good and responsible stewards of those resources, to be transparent in financial matters, and to provide for the long-term needs of the parish.

Cultivation of Vocations

As a community we encourage members to discern their unique vocation as Christians living in the world. Some will respond to that call and serve as priests, religious sisters and brothers, permanent deacons, married couples, and as single people.

Fidelity to Catholic Doctrine

Our parish is faithful to the teaching authority of Christ and his Church and strives to present the truths of our faith in a way that helps people to understand and integrate them meaningfully in their lives.
