Health Corner

Why Cholesterol Matters? High cholesterol can put your cardiovascular health at risk by effecting your heart and blood vessels. The body manufactures cholesterol, a waxy, fat-like substances that is used to make cells, hormones, vitamin D and more. It is found in cell walls throughout the body and travels through the bloodstream in little packages called lipoproteins- HDL and LDL. Your health team can guide you towards the best treatment. Until then; manage your diet and your weight, exercise, quit smoking and take your medications.

Youth News – Invite Your Friends To Join Us On Our Advent Journey Towards Excellence

Sunday Scripture Highlight

In the Gospel passage from Luke, Christ says, “If anyone comes to me without hating his father and mother, wife and children, brothers and sisters, and even his own life, he cannot be my disciple.” Our Lord is speaking here not of emotions but rather of priorities. He must come first in all aspects of our lives. Period.

He goes on. “Whoever does not carry his own cross and come after me cannot be my disciple.” In other words, it’s all or nothing. Compromise is simply not possible. Christ wants us to give all of ourselves, all aspects of our individual lives, our family life, our parish over to Him and to the pursuit of His kingdom.

Stewardship

Today’s readings make very clear the demands that will be made of those wanting to be called disciples of Christ. We must be prepared to give our all to Him. But in the end, the life of discipleship – the stewardship way of life – is the only life that can truly satisfy.
